

# Label rewinders

## ZCAT-6/8/10 ZERO TENSION LOOP CONTROLLED LABEL REWINDER

The **ZCAT** Rewinder is the ideal solution for colour inkjet printers that back feed, as well as for customers with a strong focus on print quality (300 or 600dpi applications) and RFID printing applications.

- ✓ A free-hanging "loop" of label stock is created between the printer and the Tensioning Roller thereby eliminating all tension on the paper path & printer
- ✓ A special chassis-mounted adjustable sensor starts and stops the Rewinder based on the optimum depth of the loop.
- ✓ Large capacity for roll diameters up to 300mm
- ✓ Rubber Platen Roller provides adjustable tension for tight finished rolls.
- ✓ Handles labels up to 170, 220 or 255mm wide
- ✓ Available in left to right or right to left rewind direction
- ✓ Speed up to 125cm/sec, supporting fastest printers on the market

## FEATURES

- Adjustable sensor supports customising the depth of the loop and distance between rewriter and printer
- Adjustable Tension on the Rubber Platen Roller provides perfect and tight finished label rolls. This makes the ZCAT Highly recommended for customers using label rolls afterwards in automatic label applicators
- Comes with a quick-locking "Quick-Chuck" permitting the fastest loading and unloading of cores and label rolls
- Comes standard for using cores in 76mm. On request available in 38/40/44/70/100 mm. See page 33 "chucks and vanes" for item configuration
- Settings for Torque/speed and direction via the Control Panel
- ZCAT with custom build heavy-duty & silent motor. Max. Speed: 125 CM/SEC at the beginning of a 76 mm core roll
- Bi-directional for internal & external rewinding
- Max Label Roll weight: 9KG

## DIMENSIONS

- W x D x H: 483 x 381 x 400 mm
- Shipping Weight: 36 KG, shipped in wooden crates
