

DTM Wristbands PP

Description

DTM InkJet Wristbands PP have been designed specifically for personalised identification applications and are perfect for events with a demand for entry, re-entry and security management. The smooth material makes them highly convenient and comfortable to wear. Comes with a topcoated surface which is suitable for printing by usual inkjet label printers, such as Primera's LX-Series and more. These delivers fast prints with photo-realistic imprints as colourful as you like

Face Stock

White Polypropylene with a matte finish

Product Usage

All DTM Genuine certified inkjet materials are the ideal choice for labels printed on any inkjet label printer. Proper testing in the final application environment is recommended especially when used near water or chemicals. As with all pressure-sensitive materials, this product should be tested thoroughly under end-user conditions to ensure it will meet the requirements of the specific application.

Shelf Time

2 years when stored away from sunlight and heat, in a dark, dry place at a temperature of +20 °C with a relative humidity of 50%. Prolonged storage at higher temperatures and/or humidity levels will shorten the shelf life.

Technical Specifications

Face

Material:	Polypropylene
Weight:	100 ± 5 g/m ²
Thickness:	170 ± 10 µm

Adhesive Closure

Peel Adhesion:	7.5 g/f
Liner/Backing Weight:	60 ± 5 g/m ²
Thickness:	50 ± 20 µm

Performance

Minimum Application

Temperature:	5 °C
Service Temperature:	-20 to +40 °C
